Education

2006-2011	**Lobachevsky State University of Nizhniy Novgorod**

Calculate Mathematics and informatics department
Name of diploma project: Data compression system based on modified neural network Kohonen with changeable coefficient of compressing. It was demonstrated on graphic data type.

2007 - 2008	**NIIT (IT University of Nizhniy Novgorod)**

C/C++, English, Unix, Theory of algorithms

Additional education

Oracle Database: Developer PL/SQL
Education Center Force

English courses
Oxford school

Machine Learning online course
Certificate link: https://www.coursera.org/account/accomplishments/certificate/4U8G2FESL7DQ

Skills

Professional summary

- About 10 years of experience in software development
- Skilled in developing, analyzing and debugging code
- Experienced in Win32 programming, Multithreaded programming, GUI development
- Strong understanding and experience of object oriented programming using C/C++, C# and Java
- Good analytical and problem solving skills
- Write technical documentation as required
- Leadership skills
- Sociable

Languages

English

Programming languages

C/C++	3+ years of using, last use in 2011
C#:	Strong experience 5+ years
Java	Experience of using about 4 year
Java Script	

Technologies

C/C++: MFC, VCL
C#: Win Forms, WCF, WPF
ASP.NET MVC
Java: JDBC, Servlet, SWING, Hibernate, Spring
BD: T-SQL
Strong knowledge of the software pattern design
Experience in the development of mathematical algorithms

Additional experience

Participation in freelance projects with using very different technologies and languages. Experience of project management: budget planning, specification creating, communication with the customer, team management.

I'm keen on Machine learning and Data mining theme. Currently I'm learning Python, have some experience with MatLab, have completed education courses.
